The end

Language Builder

Remind students of the different meanings for *fall* in the presentation; for example, the verb *fall*, as in the sentence about Chicago (*Temperatures often fall below zero Celsius*); and the noun *fall*, which means the same as *autumn*.

Teaching Tip

When teaching new vocabulary, make sure students are aware of the part of speech (noun, adjective, verb, etc.). Encourage students to expand their vocabulary by learning the derived forms of the new word; for example, the noun *humidity* and the adjective *humid*.

Additional Activity

Draw a three-column chart on the board with the headings: ***Nouns***, ***Adjectives***, and ***Verbs***. Have students copy the chart in their notebooks and in pairs write each weather word from the presentation in the correct column. Then have them add other weather words they know. They may want to know how to say certain words in English. Before providing the answer, see if other students know the word in English.

- The coldest temperature ever recorded on Earth was in Antarctica in 1983. The temperature was -89 degrees Celsius (-129 degrees Fahrenheit).
- The hottest temperature ever recorded was in 1922 in El Azizia, Libya. The temperature was 58 degrees Celsius (136 degrees Fahrenheit).
- The most rainfall in one year was recorded in Lloro, Colombia: $1,331$ cm (524 inches)!
- The least amount of rainfall in one year was recorded in Arica, Chile: 0.076 cm (0.03 inches)!
