Reading

Reading comprehension: Read the following passage:

British winters are mild and springs are cool because of the winds that blow from the Atlantic Ocean. They blow 2 days out of every 3. In spring sunshine and showers follow each other so often during the day that an umbrella or a raincoat is absolutely necessary in England. The weather changes so frequently that it is difficult to forecast. It is not unusual for people to complain that the weathermen were wrong. Summer is the hottest season in England. The sunrays become hot, the days are long, and the nights are short and warm. It's time for holidays, when people go to the seaside for sunbathing and swimming. As for autumn it isn't so nice. It's a season of winds and beautiful sunsets. The leaves turn yellow and reddish and fall to the ground and the birds migrate to warm countries. In autumn the days become shorter

A-answer the following questions:

1-What country does the passage talk about?

.....

2-why do people complain that the weathermen are wrong ?

.....
