It stayed in small pieces or chips. Her guests loved them, and chocolate chip cookies became popular everywhere.

Flat bread with different toppings was common in many cultures, but it became famous in Naples, Italy when they added tomatoes and cheese. At first, it was a meal for the poor, but in the 1800s it became popular with kings and queens. Today, pizza is popular all around the world.

The City of Petra

The city of Petra was established around the 6th century, as the capital city of the Nabataeans. It is now the symbol of Jordan, and it is a popular tourist attraction. Petra became a UNESCO World Heritage Site in 1985.

Petra, described as “a rose-red city half as old as time,” is famous for its unique rock cut architecture and its ancient irrigation system. It was included on the BBC list of “40 places you have to see,” encouraging more people to visit it.

Petra was like a natural fortress protected by the rocks around it. The city owed its prosperity and success to the ability of the Nabataeans to control the water supply from floods. The water was stored and sold to travelers and other towns.

Nowadays, the site of Petra is facing a number of threats. Water erosion, careless restoration of ancient structures, and an ever-increasing number of tourists cause damage and weaken structures. The Petra National Trust (PNT) is responsible for promoting the protection and preservation of this important site.

Teaching Tip

When you grade a group or pair presentation, tell students that you will grade each person individually for their part. This will encourage everyone to participate and contribute.

Project: Create a Dish

Have students work in groups to create a new dish that combines all their favorite ingredients. What are the main ingredients? Are they easy to find? How is it prepared? How long does it take to prepare/cook? Is it easy or difficult to make? Have students draw or make a collage of their new dish and present it to the class.

Culture Note

Sushi is a traditional Japanese dish that consists of cooked rice and other ingredients such as seafood, vegetables, eggs, and seaweed. Contemporary sushi differs greatly from the original dish, where the fish was preserved in the rice and only the fish was eaten. With modern refrigeration, it is possible to preserve the fish, so the fish is often served raw.

Popular variations of sushi today contain salmon, tuna, prawn, and crab, often in the form of a sliced roll with rice that is held together with seaweed. Sushi is usually served with ginger, wasabi, and soy sauce.
