Mrs. Hassan: Hi, Asma. I see you're buying the groceries today.

Asma: Hello, Mrs. Hassan. My parents are busy, so I have to do the shopping. The store has some special offers here this week, you know.

Mrs. Hassan: What are you buying? What's in your cart?

Asma: I have four packages of frozen chicken burgers. They're on sale for 3 dollars a package. That's really cheap. And I have two dozen buns. When you buy one dozen, you get a dozen free. And look, I've got extra large bags of potato chips for \$1.50 each. That's really, really cheap.

Mrs. Hassan: But what are you going to do with all those buns and potato chips? They're going to be stale before you can eat them all. I'm not sure that the food is such a bargain when you can't eat it all.

Asma: I guess you're right. I didn't think of that.

Mrs. Hassan: And besides, that food isn't very healthy. Did you get any fruit or vegetables?

Asma: No. Only the peaches were on special, and I don't like peaches. I didn't buy any vegetables either.

Mrs. Hassan: Why don't you put the food in your cart back on the shelves, and I'll help you shop?

The end

Language Builder

Explain the importance of using the article *a* with *a few* and *a little*. Without the article, the meaning changes. For example, *Joe eats a few carrots every day* means that Joe eats two or three carrots every day. *Joe eats few carrots* means that Joe doesn't usually eat carrots.

Language Builder

Explain that in writing, we use a comma after the sequence words and expressions that begin a sentence. The sequence word *then* can be written with or without a comma after it. However, *then* is used with a comma when it precedes a summing up, or conclusion sentence: *Then, you're saying you don't want to go.*

Teaching Tip

It often helps to set up a real situation in the classroom to help exploit language. For example, set up a “supermarket scene.” Bring some nonperishable food and nonfood items to class. Label the items. Have students discuss the prices. Alternatively, you could just bring in supermarket flyers to discuss.

Additional Activity

Activity 1: Have students identify dishes they know that require a lot of ingredients. Have students list the dishes and the ingredients. Then have them tell the class the dish and the necessary ingredients with quantity words. For example: *For stew you need a lot of beef or lamb, one onion, a few carrots, and a few potatoes. You also need a little oil, a little salt, and a little pepper. You also need two tomatoes.*

Activity 2: Have students volunteer to make the pizza recipe at home. Ask them to report to the class how successfully they followed the recipe and how the pizza turned out. Or, ask the volunteer to bring in samples for the class!

fun facts

- Most people agree that the modern pizza originated in Naples, Italy. Today, Naples is still famous for its pizza.
- Pizza Margherita, the most popular pizza in the world today, was first created in 1889 to honor Queen Margherita of Italy. This is a pizza made with the colors of the Italian flag: tomatoes for the color red, mozzarella cheese for the color white, and basil for the color green.
- The biggest pizza ever made was baked in Norwood, South Africa in 1990. The massive pie was 37.4 meters across and weighed 12,194 kilograms. It contained 4,500 kilograms of flour; 1,800 kilograms of cheese; and 900 kilograms of sauce.
- People all over the world like different toppings on their pizza. In Japan, eel and squid are favorites; in Costa Rica, coconut is preferred; Brazilians like green peas; and in India, popular pizza toppings are pickled ginger and minced mutton.
