Read this passage and then answer the questions below:

In the last seventy-five years, *air travel* has become the important means of long distance transportation around the world. The airplane was adopted for passenger service in Europe in 1919. Later in 1927, people in the United States began to travel by air. On 14 March 1947 in Saudi Arabia, a new airline started with a fleet of five, 24-seat Douglas DC-3s. On those days, a DC-3 took off from Jeddah for Riyadh, Hofuf and Dhahran. The 1,200 km trip took four hours and a half . The same journey by land took about two months at that time. No matter where you travel by plane, the process is usually the same. You arrive at the airport at least two hours before the plane is scheduled to leave. Right away , you show your passport and ticket to the agent. Then he gives you a seat number and checks your suitcases. After that you go to the gate where you will board your plane. Finally, an agent announces that it is time to board your plane, and you are on your way.

A) Put (T) for true and (F) for false (a mark for each one)

- 1) You should arrive at the airport two hours before the plane is scheduled to leave. ()
- 2) You show your passport and ticket to the agent. ()
- 3) Air travel isn't important nowadays. ()
- 4) Douglas DC-s has 20 seats only. ()
- 5) People in the United States began to travel by air in 1947. ()
- 6) The opposite of the underlined word is landed. ()
