✎ **Write an assay about (Influential people) using the notes below :**

Guided words: power- actions - decisions - leaders – activists – scientists - significant - society – individuals - shape - remembered - contributions – history – difference- daily .

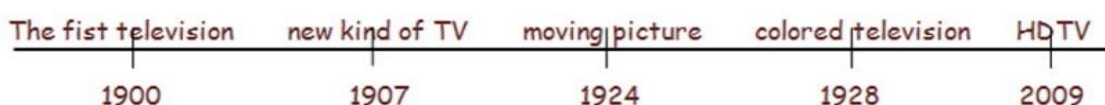

Influential people

Influential people are those who have the power to affect the ideas, actions, and decisions of others. They can be leaders, activists, artists, scientists, or anyone who has made a significant impact on society. These persons can shape the world we live in. Some influential people are remembered for their contributions to history, such as King Faisal , while others still make a difference in our daily lives such as Prince Muhammad bin Salman.
