

# Elon Musk

Elon Musk has achieved global fame as the (CEO) of electric automobile maker Tesla (TSLA) and the private space company SpaceX. His success and personal style have given rise to comparisons to other colorful tycoons from U.S. history. He was named the richest person in the world in 2021, surpassing Amazon founder Jeff Bezos. Musk is the richest person in the world as of September 2023

Musk was born in 1971 in Pretoria, South Africa. His father was an African engineer, and his mother was a Canadian nutritionist. He displayed an early talent for computers and entrepreneurship. At age 12 he created a video game and sold it to a computer magazine

In 1988, Musk left South Africa because he saw greater economic opportunities available in the United States. Musk pursued a Bachelor in Economics degree at the Wharton School of Business at the University of Pennsylvania. In 2004, Musk played an instrumental role in designing the first electric car of Tesla named "The Tesla Roadster". Tesla emerged out to become the world's most popular and desirable car brands. Musk claims 2008 as the worst year of his life. With the financial crisis, Musk was broke, and he also had to pull out Tesla from the massive debt, and along with that, he was undergoing a divorce procedure, but he didn't give up. Musk was known as strong, smart and stubborn, he always finds a way to get through the obstacles smoothly

Elon Musk has always pushed all varieties of space-age technologies, but it was not still a perfect ride for him. He went on from being bullied in school to becoming a small entrepreneur and finally became the leader of two innovative companies. But from there, he decided to rise and never settle down for anything less

When something is important enough, “

you do it even if the odds are not in your favour.”-
