

A Rememberable Accident

Last year a speedy car was driven in Makkah Jeddah Highway. Suddenly it swerved and hit my friends car.

Because the young man was cautious and using his phone and wasn't paying attention on the road when the car crashed.

Fortunately, they were wearing a seat belt. But they were slightly injured.

Luckily my friend was wearing a seat belt, so she wasn't injured severely. The other driver was caught by the police.

Dear Nasir

I hope you have a great school year I am really sorry to hear that you are feeling down and can't adjust to your new school.

I understand how you feel when you aren't accepted by your classmates in your new school and you are "new student". You ought to take up a short conversation with them about this matter.

I don't understand why your classmates are not allowed you to participate in the football team .You had better talk to your classmates to allow you participate in the team.

I'm sure things will get better soon they usually do hope you hope to see you soon

Allan
