Do You Know Where This Place Is?

Look at each photo, read the text, and guess the name of the city or country. In what ways is it similar to or different from where you live?

The public transportation system is the most efficient in the world. The bullet trains can travel at 186 miles (300 kilometers) per hour and are extremely punctual. Fares for the express trains are as expensive as airplane fares, but overall, the time required for the train trip is usually shorter, since there is no need to travel to an airport.

The city is known to be one of the safest cities in the world. The overall crime rate is roughly the same as that of Singapore, but lower than that of Tokyo, Toronto, and many other large cities.

It is home to one of the oldest universities in the world and one of the largest. Nowadays, the town isn't as quiet as it used to be, but the quality of life is still just as good. There are lots of green areas, and a quarter of the population cycles around the town: over the bridges, through the parks, and along the narrow streets.

4. I love Denver, Colorado. It's an awesome city to live in. There are a lot of trees and parks. With all the green spaces here in the city, it's really easy to go walking or cycling whenever I want. That's important to me, my family, and my friends. We think the quality of life in Denver is the best of any city in the world.
5. Todd lives in the suburbs and not in the big city. He likes his neighborhood. It's safe and quiet, and people know their neighbors. In fact, there hasn't been a robbery in his neighborhood for two years. The crime rate is definitely lower in his neighborhood than in the city.

The end

Teaching Tip

Always predict the language students will need for oral activities. For example, if you ask students to rank something, such as the quality-of-life indicators, review the use of ordinal numbers.

Additional Activity

Have students make comparisons about living choices. Write choices on the board. For example: ***live in a house/in an apartment; live in the city/in the country; work in an office/at home; have good schools/good public transportation.*** Write on the board: ***Is it better to live in a house or an apartment?*** Have a few students respond. Be sure they give reasons for their choices. Then have students ask one another questions in groups. Have one person in each group report back to the class about the group's answers.

- The bullet train railway system in Japan is called the *Shinkansen*. It has operated since 1964. During tests, these trains have reached up to a speed of 361 miles (581 kilometers) per hour.
- Although the bullet trains are very fast, they have an excellent safety record.
