Comprehension

Read the following passage carefully then answer the questions below:

One day, I was standing outside an underground station in London because I was waiting for a friend, when I saw two men. One was sitting on the pavement. His clothes were old and dirty. He had a hat in front of him. As people passed by, he said, “ Can you give me some change, please ? “ a few people put some coins into the hat but most people ignored him.

The other man was wearing a suit and holding a plastic petrol can. He stopped people and told them his car had run out of petrol and he had forgotten his wallet. He asked them to lend him some money for petrol. Most people happily gave him money. Some gave him coins, but most gave him notes. I watched him for ten minutes. In that time, he collected a lot of money.

He put **it** in his pocket, but he did not go to the petrol station. It became clear to me that both men were beggars. The one in the dirty clothes needed money more than the one in the suit, but the one in the suit was much more successful. Isn't that strange ?

Read the following passage carefully then answer the questions below:

Water is the most priceless gift of nature. It has no taste, no smell and no color. It is found everywhere and the other name of it is life, because it is the basis of fluid element of living creatures. Water is life and the lack of it means death. Any living thing cannot go on living without it. Plants need water to grow. Animals need water to drink. People need water to drink and to use in cleaning, cooking and for other uses. We can get water from rivers and lakes. But the main source of water is the rain.

If water is wasted, we lose a priceless resource. Water is a natural resource for the use of all life forms. We also need water for our gardens and public parks. Water is also needed for the forests to stay alive. If human pollute water and waste it, the environment is harmed and all life forms are threatened.

Finally, we should say that water is one of the most important substances on earth. All plants and animals must have water to survive. If there was no water, there would be no life on earth. Thanks to God, the Merciful, who has created water for us, we don't need to pay for it as it is neither sold nor bought.

The Eiffel Tower

The *Eiffel Tower* is one of the most famous building in the world. It is a 324m high structure in the center of Paris, France. Over the years, it has become a symbol of the city and the country. When they built it, *The Eiffel Tower* was the tallest building in the world. The tower got its name from its designer, Gustave Eiffel, and it was built from 1887 to 1889. The tower was opened to the public on 6th May 1889. Today, it is without doubt one of the most recognizable memorial in Europe, one that can be compared to the Statue of Liberty in New York, and the Big Ben in London.

However, soon after opening, newspapers were full of angry letters from people saying how much they hated the new building. This soon changed, and today it is very popular with millions of tourists who visit it every year. You can even find smaller copies of the structure in many cities around the world.

Arabic Coffee

Arabic coffee or (Gahwa) is a very important drink in Saudi Arabia and in the Arabian Gulf countries. Preparation, serving and drinking Arabic Coffee are derived from Bedouin hospitality. Usually, guests are served with Arabic Coffee and Dates.

It is all about tradition, hospitality and ceremony. It's a sign of welcome and marks the beginning and the end of a guest's visit.

It can be served anytime at home, at social gatherings or business meetings. The coffee is served and received with the right hand. The host serving the coffee fills the small cup only half full. As soon as the guest drinks it, the cup is refilled continually until the guest gently jiggles the cup indicating he has had enough ,it is customary to take 2 to 3 cups. Sugar and milk are never added but it is often served with dates.

The trees that produce Arabic coffee can measure over three meters in height. The leaves of the Arabic coffee plant are also comparatively large.
