

Education and 2030 Vision :

Ways of educational development :

- Developing philosophy, policy and goals of curricula, means of development, mechanism activation and connecting all these means with the programs of teacher preparation and his professional development .
- Developing such teaching methods, that focus on learner not on teacher, and concentrate on inculcating skills, personality development, improving confidence, and promoting spirit of creativeness.
- Developing attractive, preferred, and simulant school environment, connecting it with supportive and integrated services systems.
- Comprehensive education for persons with disabilities, and providing appropriate support to all its categories.
- Providing pre-primary education opportunities and expanding it, providing kindergartens, and activating its link with education system.

Ways of administrative development :

- Redefine school as an educational institution, that hones talent, inculcates skills, and nurtures generation of ambitious future adults who have the spirit of facing challenges, competitiveness, and loves work, and production.
- Assuring discipline in the educational system, seriousness in educational practice, starting activities and attending conferences and events.
- Restructuring education sector, modernization of systems, instructions, and bylaws to control curricula development, staffing teachers in educational services, organizing the process of educational supervision, and continuously raise the competence of development and vocational training.
- Raising efficiency of operational performance, reducing the waste cost, maximizing use of human potential, resources, equipment, and buildings.

Changing trends :

- Improving and developing the administrative environment in the Ministry and its Education departments, approving decentralization of the administration, delegating powers to departments and schools to serve the education system.
- Developing rules and procedures to ensure work seriousness, and discipline in education system, promote justice, and reward excellent performance.
- Raising the efficiency of performance, employing modern support technologies in education system.

The General goals of the Saudi Vision 2030 in Education :
