

How it works:

1. Introduce the vocabulary word and the map to the students.
2. Teach them how to use the map by putting the target word in the map.
3. Ask students to suggest words or phrases to put in the map. Ask them to answer the following questions: "What is it?" "What is it used for?" "What are examples?"
4. Encourage students to use synonyms, antonyms, and a picture to help illustrate the new target word or concept.
5. Model how to write a definition using the information on the word map.
