

Past	present	future
What was I able to do? say the alphabet.	What am I able to do now? make a conversation in English.	What will I be able to do? speak fluently.
What wasn't I able to do? I couldn't speak English.	What am I not able to do? understand every word.	What won't I be able to do? speak an American accent

I Am Able to Do That

I am learning to speak English these three years. I was able to say the alphabet only. Now I can speak and make a conversation in English. It's amazing! but still I'm not able to understand every word I heard. Soon I will speak fluently. I think I will not be able to speak an American accent very well.
