## Museum exhibits

A **museum** is an institution that cares for (conserves) a collection of artifacts and other objects of artistic, cultural, historical, or scientific importance. Many public museums make these items available for public viewing through exhibits that .

A **museum** is a building in which we see objects of artistic, cultural, historical and scientific interest. These things are kept here for the public. It is a treasure house of great knowledge.

### Four reasons to visit a museum

#### 1. Museums make you feel good

a recent study finds that people are happier when they spend money on experiences rather than material purchases. Experiences are shown to create more happiness than material goods

#### 2. Museums make you smarter

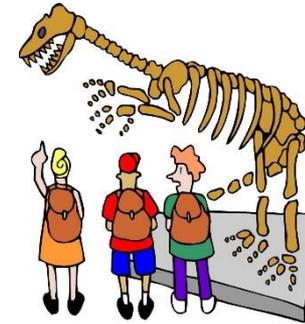

The primary role of museums is to engage and educate the community.

#### 3. Museums inspire

Museums provide inspiration through personal connections with visitors. These kinds of personal memories created at museums do not expire.

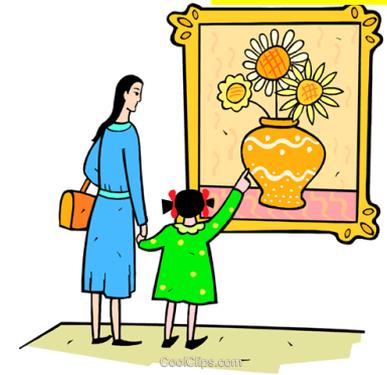

#### 4. Museums are a great way to spend time with friends and family.

Museums provide a great excuse to spend time with friends and family in a positive way. Personal connections can be made with museums and also with family members during visits.
