Reading passages:

A robot is a machine. But it is not just any machine. It is a special kind of machine. It is a machine that moves. It follows instructions. The instructions come from a computer. Because it is a machine, it does not make mistakes. And it does not get tired. And it never complains. Unless you tell it to! Robots are all around us. Some robots are used to make things. For example, robots can help make cars. Some robots are used to explore dangerous places. For example, robots can help explore volcanoes. Some robots are used to clean things. These robots can help vacuum your house. Some robots can even recognize words. **They** can be used to help answer telephone calls. Some robots look like humans. But most robots do not. Most robots just look like machines. In the future, we will have even more robots. They will do things that we can't do. Or they will do things that we don't want to do. Or they will do things that are too dangerous for us. Robots will help us fight fires. They will help us fight wars. They will help us fight sickness. They will help us discover things. They will help make life better.

My favorite city is Abha. It is a small city with wonderful trees and parks. It is so cold. There's a famous city "High City" I can visit the Art Street and climb the Souda Mountains. I like its clean air and quietness. I like the hills and the old brown buildings, but I don't like it in winter. People can protect its environment by not throwing trash in its national parks. Because it's a beautiful city. I think we should follow the rules and laws, respect the right of others, be a good neighbor.

Abha is a small city. I like the wonderful trees and parks. I like the hills and the old brown buildings. I like the mountains and the coffee shops in the center of town where you can meet a lot of people there. I can go to interesting museums. There's a famous city "High City" I can visit the Art Street and climb the Souda Mountains. It's a very beautiful city. I don't like the weather in Abha because it's often cold and rains, even in the summer. My city will gain benefits from improving assets like roads, streets, sewer and water systems. The main aim of my city is to keep the environment clean and to let tourists know about our cultural heritage . Also, to Organize and improve the means of transport and communication.. Good citizens can participate in the social life of their city. Volunteer to be active in the community, follow rules and laws, respect the right of others, be a good neighbor and protect the environment.
