The home that means the most to me is my grandmother's house. On the outside, the house looks quite traditional. It is made from sand, clay, water, and organic material that are shaped into bricks and left to dry under the sun. It is beautifully-designed and it has soft lines. There is a large cactus tree near the entrance. The kitchen is spacious and has hand-made wooden cabinets. The floor is hard and covered with carpet of flowers and leaves.

write a paragraph about your Date to Remember or Recycle.

Date to Remember

23rd of September, this date is quite important and means a lot to us as Saudi citizen because it's the date of our beloved country National Day. On this day, we the people of Saudi Arabia, celebrate this unique day each year to commemorate the unification of the kingdom of Saudi Arabia and to express our love and loyalty. We are all proud to be Saudis and we will always be.

Recycling

Recycling is a word which means reusing things like paper, glass, plastic and metal. It is a smart way of making something useful out of nothing. We can recycle waste to save our environment. Old clothes which we no longer wear can be given to the poor. Old books which we don't need can be given to those who need it. So always remember the three R's "Reduce, Reuse and Recycle".
