How do you think Saudi Arabia will change in future !!

Write a paragraph about what **progress and developments will have been made by 2030 in ( education ):**

Electronically  - computers -    studying

electronic - subject - digital -   improved

By 2030, we will have got education electronically.

We will have used computers for studying. We will have electronic books .Also, we will study new subjects in schools. I think, there will be digital classes. We will get lessons and do homework online. Finally, education will have improved by 2030.
